

Nominated person in control of the work NEN 9140 (WV NEN 9140 online)

Looking for an online NEN 9140 nominated person in control of the work course (WV NEN 9140)? Informative and practical? The WV NEN 9140 e-learning course from Ingenium dé opleider is just what you need! The employees we train take a practical approach. Our motto is: Safety takes action!

The WV NEN 9140 e-learning course is taken by supervisors at garages, agricultural machinery companies, forklift companies and businesses working on electric vehicles of all kinds. In short, WV NEN 9140 is suitable for anyone who supervises others. Enrol now on the NEN 9140 Work nominated person course from Ingenium dé opleider!

What you will gain

After completing the WV NEN 9140 course, you will understand all the risks of working on and near electric vehicles. You will also be able to take the measures needed to carry out the work safely. Your employer may also appoint you as a Work Supervisor under NEN 9140.

How the Ingenium WV NEN 9140 online course works:

- ✓ Enrol on the e-learning course
- ✓ Work through the course material at home or at work, entirely at your own pace
- ✓ Complete the interim assessments
- ✓ If you have any questions along the way, contact us via chat, email or phone
- ✓ After working through the course material, take the final assessment. Once you pass, you will receive an NEN 9140 Nominated person in control of the work e-learning certificate.

Entry requirements

Prior NEN 9140 Skilled Person training is required. We recommend an upper secondary vocational qualification (Dutch MBO) or equivalent experience in the field.

Course duration and study time

The course material takes approximately 8 hours to complete.

Meets Dutch Working Conditions Act requirements

By taking the WV NEN 9140 course, both the employer and employee meet the requirements of the Dutch Working Conditions Act (Arbowet) for adequate instruction and demonstrable competence.

Theory and practice

Ingenium dé opleider courses excel in practical application. Theory is essential for working safely

on or near electrical installations. Topics covered include:

- The links between the Dutch Working Conditions Act and NEN 9140, and their impact on working conditions.
- The various roles under NEN 9140 (ev-VOP, ev-VP and ev-WV) and how people are appointed to them.
- The appointment process carried out by the employer or the person responsible for health and safety.
- The specific responsibilities of the ev-WV for safe working.
- The importance of adequate instruction and regular refresher training.
- The required personal protective equipment (PPE) and tools.
- The clear, step-by-step NEN 9140 procedure and who may carry out each task.
